Book Condition: New. Publisher/Verlag: Springer Netherlands | The definite treatment of aortic disorders goes back to the resection of isthmic coarctation by Clarence Crafoord in 1944. It took another third of a century until all portions of the aorta became accessible to highly standardized surgery. This progress, delayed as it was in relation to most other cardiovascular interventions, depended on the availability of safe protective methods for the heart and central nervous system, of reliable vascular grafts and atraumatic instruments, novel suture material and tissue...
