This pdf is worth buying. It is actually written in basic words and not confusing. It has been printed in a remarkably basic way in fact it is merely following. I finished reading this publication through which really altered me, affect the way I really believe.

Brand New Book ***** Print on Demand *****.Excerpt from A Review of the References to the Hortus Malabaricus: Of Henry Van Rheedee Van Draakenstein Several years ago I attempted to ascertain the names of the Plants which have been figured by Rheedee and Rumphius in the Hortus Malabaricus and Herbarium Amboinense, and my late residence in London has enabled me to find materials, which nothing but the libraries and collections of the Metropolis can furnish, for settling many of the doubtful synonyms. I have here arranged the notes and remarks thus collected on the former of these Works, and the Hortus Malabaricus has now been so generally cited in all works on Botany for nearly a century and a half, that this Review can hardly fail to be of some use, particularly to the Students of Oriental Botany. Opposite to the number of each plate I have given, so far as I could collect them, the various synonymous names of the species to which the figure belongs, but more particularly those for which it has been quoted, and the names of the authors, when they have given a direct reference to the plate, are printed in Italics. In a paragraph below I have noticed those other references which I believe to be erroneous, and have offered a few occasional remarks on the species. Many of the notes were written at distant intervals, and some of the species have received much more attention, or been studied under more favorable circumstances, than others; but, even where the true and false synonyms have not been rightly distinguished, the convenience of having all the references to each plate brought together will equally remain. To my friend, Professor Don,...
