Not illustrated. 1885 Excerpt: . Science was fresh from the printing press to our hands. His own presence as a teacher emphasized and illustrated the principles of these philosophies, so that they have remained with us and have ever formed a part of our substantial thinking. To say that Jackson and Gillespie were mathematical geniuses is but partial recognition of their merit. The one was thoroughly practical. By the originality of his thoughts, illustrations, and interesting methods, Gillespie won some of us to his recitations--not because his subjects were within our required course, but simply on account of the inspiration which he infused in us; while to those to whom these subjects were primary in importance, he was an object of intellectual worship. (Tillespie was as thorough in his teaching and class discipline as in his theoretical thinking. To Dr. Jackson the knowledge of the principles of mathematics and their...
