Academic Foundation, 2008. Softcover. Book Condition: New. The significance of database for agriculture and allied activities lies in the value addition it makes to research and policy formulation. The "Agricultural Statistics at a Glance" is a much awaited publication since it provides authentic information in a comprehensive manner. It provides wide range of data on crop production and productivity across States/regions, markets and prices, terms of trade, price support and procurement, domestic and international trade, credit, insurance, etc. The book will be greatly useful for economists, policy makers, researchers, agricultural scientists, students, different government and non-governmental organisations working in the agricultural sector and the public at large.
