

## Oxford Dictionary of Musical Terms

By Alison Latham

Oxford University Press. Paperback. Book Condition: new. BRAND NEW, Oxford Dictionary of Musical Terms, Alison Latham, Printed music and writing about music involve the use of complex systems of notation and a wealth of technical terms in several languages. The Concise Oxford Dictionary of Musical Terms provides clear, succinct, definitions of a comprehensive range of the musical terms, in English and other European languages, that are likely to be encountered in Western music. Over 2,500 A-Z entries range across a spectrum of subjects, among them: rhythm, metre, forms, genres, pitch, scales, chords, harmony and counterpoint, notational systems, composition and analysis, performance practice, tempo, expression, musical periods, artistic movements, computer applications, acoustics, and many more. Entries provide etymologies, and are fully cross-referenced. Some are illustrated with music examples and tables. An appendix lists all composers mentioned in the Dictionary, with their dates. It is an ideal book for students and teachers of music - it covers all the terms required in the SMAB musical theory exams - as well as for professional musicians, those learning to play musical instruments, and members of choirs, and musical groups. It will also be a useful quick reference book for concert-goers, CD-collectors, and radio listeners.

### Reviews

*This is actually the finest ebook i have got study till now. I actually have go through and that i am sure that i am going to likely to read once again once again later on. Its been developed in an extremely straightforward way and is particularly simply soon after i finished reading through this ebook through which actually modified me, change the way i really believe.*

-- *Mrs. Maybelle O'Conner*

*Just no phrases to describe. It typically does not price an excessive amount of. It is extremely difficult to leave it before concluding, once you begin to read the book.*

-- *Felton Hessel*
