In Silbury Dawning: The Alien Visitor Gene Theory, Third Edition, John Cowie explores historical clues that point toward the arrival of aliens in the ancient human past. Cowie argues that these extraterrestrials bred with, or genetically experimented with Homo species and educated our Homo ancestors. Those Homo sapiens with the alien visitor gene had a significant advantage and began to replace those that did not. This resulted in the highly intelligent human race that quickly evolved from a single point, thus changing the course of human evolution and supercharging our intelligence. Silbury Dawning takes its name from the famous English manmade mound that dates from pre-history. Cowie believes the enormous mound was built as a pyramid and served as a multi-functional device to ensure the survival of aliens and their human offspring on Earth some 13,000 years ago. In 2007-2008, an English Heritage Conservation and Restoration Project confirmed that Silbury Hill in Wiltshire, UK, was clinically constructed to a pre-determined complex plan and is not simply a mound of chalk as previously thought.
