Read Books, United Kingdom, 2010. Paperback. Book Condition: New. 213 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****. This book is primarily intended for the use of architects, builders, and foremen who have concrete building work on hand for which the reinforced concrete details have not been prepared or cannot be quickly obtained. It is also hoped that it will be of assistance to engineers who find themselves responsible for occasional structural work but whose knowledge of concrete construction is limited. With the aid of the designs given it is possible to erect a small building, tank, retaining wall, etc., and the details and operations are described in as simple a manner as is possible with a somewhat complicated subject. General Specification and Notes; Foundations; Columns; Beams; Lintels; Floor and Roof Slabs; Panel Walls; Staircases; Saw Tooth Roofs; Water Tanks; Retaining Walls; Index; Books on Concrete. This book contains classic material dating back to the 1900s and before. The content has been carefully selected for its interest and relevance to a modern audience.
