

Diphtheria, Its Prevention, Restriction and Suppression (Classic Reprint) (Paperback)

By Illinois Dept of Public Health

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Diphtheria, Its Prevention, Restriction and Suppression A teacher developed diphtheria from passing the night in a room in which three weeks before a fatal case had occurred. A child developed diphtheria after putting on the clothing worn by a child which had died of diphtheria two months before. In a number of isolated dwellings diphtheria developed nearly a year after previous outbreaks without there being any apparent possibility of a new infection taking place from the outside. I have met with a number of cases where the infected bedding or clothing has undoubtedly been the source of the infection. - From American System of Practical Medicine, Loomis-Thompson. Disinfection Of Houses. A very wholesome practice that bids fair to become an established custom is the disinfection of a rented house before a new family moves into it. This is done, now, where a case of very contagious disease, say smallpox, or diphtheria, has been known to exist; but how can we feel sure that the house we are about to move into and live in has...
